## About

---

Final year student, currently pursuing B.Tech from B.I.E.T Jhansi. I have a prior and relevant work experience in web development and have proficient in working with framework including next.js and express.js. I enjoy solving challenging problem and have worked with a good number of successful development teams.

## Education

---

**Bundelkhand Institute Of Engineering and Technology**

**Jul. 2018 – Jun 2022**

*Bachelor of Technology in Information Technology*

*Jhansi, U.P*

## Experience

---

**Real11**

**Jan 2022 – Present**

*Software Developer Intern*

- Real11 is a fantasy sports platform with 25lakh+ user
- My role is here to create api using nodejs and for storing data MySQL and MongoDB is being used.

**MakeOurApp**

**Jun 2021 – Aug 2021**

*Software Developer Intern*

- During the internship period me along with team worked on a making a web application, which aim to deal with PDF file like we do in Adobe acrobat reader.
- I used MERN stack to develop the application and used next.js as a framework for react.js.

**Legalshala**

**Dec 2020 – Feb 2021**

*Front End Developer Intern*

- During the internship period, me along with the team worked on the online communit platform [www.legalshala.com](http://www.legalshala.com)
- I used frontend frameworks for the development and scratch cloning of the web pages using HTML, CSS, JS and Bootstrap and integrating in ejs templates..
- At the same time, I also made several campaign web pages on the material library.

## Projects

---

**Ecommerce | MERN**

**Jan 2021**

- This web app is simply developed by using React .js, and Nodejs and MongoDB cloud database is used.
  - In this project there are multiple components some of the m are showing product 's list, adding a review by a user and updating that review and placing an order via cart, payment integration is also done.
  - Also, it has a admin panel ,admin can update order status and can add new product or update the no of stocks left.
